1. Applicant should cancel non-elected claims 11-15 to expedite prosecution.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Franke et al (see Fig. 4; col. 5, line 62 through col. 6, line 5) in view of Japanese Kokai 63-265,209 for reasons of record as set forth in paragraph 2 of the previous action.

3. Applicant's arguments filed March 267, 2008 have been fully considered but they are not persuasive. Applicant notes that Franke et al discloses applying the foam bodies into the sheath by means of holes that are disposed at regular intervals along the sheath, that the sheath must be extruded prior to the bodies being introduced and that the skilled artisan would not be motivated to modify the method of Franke et al to install the foam bodies in any manner other than regular intervals. However, it should be noted that the instant claims do not set forth any particulars of when the sheath is extruded or exactly how the foam bodies are placed therein. Hence, it is respectfully submitted that the instant claims are properly rejected by the combination of art.

4. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
